

**Medical Oncologist
Department of Oncology
Queen's Health Sciences**

Job Opportunity

The Department of Oncology at Queen's University in Kingston, Ontario, Division of Medical Oncology, is accepting applications for a full-time academic Medical Oncologist position to begin July 1, 2026. The successful applicant will join a multidisciplinary cancer program and a team of Medical Oncologists, Hematologists, and Radiation Oncologists at the Cancer Centre of Southeastern Ontario. This position is to fill an existing vacancy within the University.

The preferred applicant will have successfully completed medical oncology training or equivalent by the time of appointment and will be capable of treating patients from 2-3 different disease sites. Opportunity would be to choose one major site from Lung Cancer, GI Cancer, and treatment of one or two other sites would be as determined by patient need in the local area. All applicants are encouraged to apply regardless of previous tumour sites treated or focused on in fellowship. Clinical responsibilities will include participation in ambulatory clinics and attending duties on the inpatient service. Other clinical responsibilities will include participation in local tumour-site based teams, including multidisciplinary case conferences and site group meetings.

Academically, the candidate will participate in undergraduate medical education and postgraduate medical education in the medical oncology residency training program. A demonstrated interest in molecular oncology/translational medicine, through research, publications, or training experience, and experience with Terry Fox Marathon of Hope or other large molecular datasets would be a favourable asset and help address an area of need in the Division. Conversely, research experience and interest in epidemiology, outcomes, and mixed methods research would be considered an asset and add to a current strength of the Division. The successful candidate will have an appointment in the Department of Oncology at Queen's University and will be expected to commit 30% of their time in clinical research and teaching activities within the Department.

Qualified applicants will hold an MD degree (or equivalent), certification in Internal Medicine, with special competency in Medical Oncology/ Hematology (or equivalent). Additional Fellowship training beyond Royal College certification or additional post-graduate degrees would be advantageous. Candidates must be eligible for licensure by the College of Physicians and Surgeons of Ontario. Preference will be given to those who either hold or are eligible for certification by the Royal College of Physicians and Surgeons of Canada.

Remuneration is through the Medical Oncology Alternative Payment Plan in Ontario and includes a tiered base salary with an additional shadow billing premium. For additional information regarding compensation structures for this position, please contact OncDeptManager@KingstonHSC.ca

Queen's University is recognized nationally for the quality of its undergraduate and graduate programs, which attracts outstanding students. Queen's University is an integral part of the vibrant Kingston community in the heart of the Thousand Islands region of southeastern Ontario. It has a community spirit and amenities unmatched by any other Canadian university. The University and the region offer an outstanding academic and community environment (www.queensu.ca).

The University invites applications from all qualified individuals and is strongly committed to employment equity, diversity, and inclusion in the workplace. Queen's encourages applications from Black, racialized/visible minority and Indigenous people, women, persons with disabilities, and 2SLGBTQA+ persons. All qualified candidates are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadian citizens and permanent residents of Canada will be given priority. Applicants are asked to indicate whether they have valid legal work status in Canada.

Those interested in this position should submit a complete application package, including the following documents:

- a cover letter, summarizing expertise, qualifications, and accomplishments relevant to the position. The cover letter should also indicate whether or not you will require a work permit and/or require support with an extension of your work permit in the future.
- a Curriculum Vitae; and,
- the names and full contact information of three referees.

Complete applications are to be addressed to Dr. Khaled Zaza, Head, Department of Oncology, Queen's University, and directed to: Rianna Lewis, OncDeptManager@KingstonHSC.ca.

Review of applications will commence immediately and will continue until the position is filled.

The University will provide support in its recruitment processes to applicants with disabilities, including accommodation that takes into account an applicant's accessibility needs. If you require accommodation during the interview process, please contact [Rianna Lewis](#) above.
