## Statement of Confidentiality

I understand that candidates who have advance knowledge of the interview panel or questions will have an unfair advantage over those who do not.

Therefore, I affirm that I will neither record the interview (or any part of it) nor disclose any information about the panel members, the questions I am asked, or the answers I provide, to anyone, whether directly or indirectly, through any means of communication. I further affirm that I will not accept any such recording or information from anyone else if it is offered to me.

I understand that if I am found to have contravened my statements above or to have taken any action that provides any candidate with an unfair advantage in the interview process, my conduct will be treated as a violation of professional ethics and integrity, and I will be removed from consideration for all positions for which I have applied or may apply for a period of at least two years.
